## WORK EXPERIENCE

### Development Platform

July. 2024 –September.2024

*intern*

*onsite*

- HCK App admin panel
  - Resolved bugs in codebase of the Herald College Kathmandu app's admin panel to enable accurate routine display
  - Work on recruitment portal of HCK and was responsible for implementing designs provided by UI/UX department

---

## PROJECTS

### Weather app

-Developed a Weather App using React JS, enabling users to search and view weather information for any city. Implemented RTK Query for efficient data fetching and caching, optimizing API performance and reducing load.

### Football Formation Viewer

-Developed a Responsive Formation viewer using React JS,through which users can select popular football formations and view them.Implemented RTK for state management and Tailwind css for design.

### Expense Tracker App

-Developed an Expense Tracker app to help users manage income, savings, investments, and expenses.

- Features include recurring payments for expenses, automatically deducted each month.
- Using **Zustand** for state management, **React Router** for navigation, **Tailwind CSS** for styling, **TypeScript** for type validation and **React JS** for development.

### Football Site Admin Panel

- Developed a **secure and responsive Admin Panel** for managing football-related operations, including **match scheduling, goal tracking, and news posting**.
- Implemented **RTK Query** for efficient data fetching and caching, ensuring seamless real-time updates which lead to less api usage.
- Integrated **Bearer Token authentication** to enhance security, restricting access to authorized admins only.
